

St. Paul & St. Timothy's Catholic Infant School

GROWTH MINDSET

At St. Paul & St. Timothy's Catholic Infant School we believe that having a growth mindset as opposed to a fixed mindset will help children to develop positive attitudes to learning. It will instill in them a belief that their brains will develop and grow if they work hard and exercise them. We will use growth mindset language with the children. We will talk about trying hard, perseverance, being positive and that making mistakes is an opportunity for learning.

If you are interested in growth mindset and how you can support your child in developing a positive attitude, then search Growth Mindset on the internet or click on the link below. There is a lot of information available for you, your family and your child.
